Problem What the customer does today and what it costs them. One number.

Product What you built, in the customer's own words.

Traction Revenue or users, growth rate, retention. Show the trend, not the total.

Market Size, growth, and the wedge you start in. Show the maths.

Business model Pricing, gross margin, and the metric you watch weekly.

Team Two lines each on the two people who matter most.

The ask Amount, runway, and the milestone it buys.

If this page does not fit on one page, the story is not decided yet.
