

Foundations of Environmental Science

Self-Paced Study Guide

Course Code ENV 101 | Modules 1–2 of 8

Course At a Glance

Instructor:	Dr. Elena Whitfield, Ph.D. Environmental Systems
Credit Load:	3 semester credits
Format:	Fully asynchronous; readings, recorded lectures, quizzes
Estimated Pace:	3–4 hours per module, 8 modules total
Support:	Weekly virtual office hours, discussion board within 24h

How to Use This Guide

This guide mirrors the online course shell module by module. Every chapter opens with a  **objectives**, lists an  **estimated time** and reading, closes practice with a  **hands-on activity**, and checks understanding with a  **self-check quiz** – answers are in the Answer Key at the very end. Do the activity before the quiz; skipping it is the single biggest predictor of a failed self-check.

This guide accompanies the ENV 101 course shell and the required text
Systems of the Living Earth, 4th ed. (Nimbus Academic Press).

Revision 3 – Spring Term
